### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Pursuant to Applicant's clear intent, claim 1 has been changed to:

1. (Currently Amended) A disc carrier assembly for a spindle motor for an optical disc drive, the disc carrier assembly comprising:

a rotor including an end wall and a peripheral wall, a permanent ring magnet being fixed to an inner periphery of the peripheral wall, the end wall having a central hole[[]]; and

a disc carrier including a main plate having an inner side and an outer side, the inner side of the main plate being in intimate contact with the end wall of the rotor, the main plate including an engaging portion on the inner side thereof, the engaging portion including an axial hole through which a shaft is securely extended, allowing an annular groove for securely receiving a peripheral wall portion delimiting the central hole of the end wall of the rotor, allowing joint rotation of the disc carrier and the rotor,

wherein the main plate further includes an annular wall formed on the outer side thereof, the annular wall surrounding the axial hole and defining a receiving compartment, the main plate further including a metal washer and a magnetic ring securely received in the receiving compartment, the metal washer being mounted around an end of the shaft and sandwiched between the magnetic ring and the upper side of the main plate.

Claims 3 and 7 have been cancelled

2. The following is an examiner's statement of reasons for allowance: The prior art of record neither shows nor suggests the specifically recited main plate of the disc carrier, and the

Art Unit: 2653

recited interactions of the disc carrier with the rotor, and with the magnetic ring and metal washer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
